ALL DOGS ARE UNIQUE AS THEY HAVE DIFFERENT NUTRITIONAL NEEDS BASED ON THEIR AGE, LIFESTYLE AND ACTIVITY LEVELS

If you're unsure or simply want more information, then book a free food consultation to discover the best diet for your dog. [ask in store or visit petsathome.com/foodconsultation](https://www.petsathome.com/foodconsultation)

*Based on feeding a medium sized adult dog (weighing approximately 20kg with a normal level of activity). Feeding costs per day may differ depending on bag sizes available and are calculated from on pack or online feeding guidelines and using non promotional prices checked on 12/09/2018. You should understand that the estimations provided may not be an exact reflection of your dog's unique characteristics and individual needs. †Only named ingredients are taken into account when calculating 'quantity of poultry/fish/beef/pork/duck'. 'Not Stated' means total quantity of poultry/fish/beef/pork/duck is not specified as part of the total ingredient composition. 'Not Clear' means quantity of poultry/fish/beef/pork/duck is not clearly stated as part of the total ingredient composition. Hill's: total % poultry quantity is not specified as part of the total ingredient composition, but packaging does state 'Total Poultry 39%'. True Instinct: total % poultry quantity is not clearly stated as part of the total ingredient composition, but the supplier provided us with more detailed information. Wainwright's: on pack ingredients list states 31% Turkey, which is made up of 27% Turkey Meat Meal and 4% Turkey Gravy, this is what has been used to calculate the named poultry quantity data. Webbox: 2.5kg bag feeding cost per day has been calculated as an equivalent 2.5kg bag - due to the price stated on webbox.co.uk, which is only available in packs of 4 at £10.36. For full terms and conditions, feeding guidelines and details of how individual costs are calculated please [visit petsathome.com/recipe](https://www.petsathome.com/recipe).
